Project Description:

1. Our team is going to make a game where the main character roams around in a replica of zewail city where he can experience the life inside the city and explore the different facilities inside it .
2. Our game visualises the life of zewailians in a 2D world inside the university of zewail with an experience of making it as a story where players get to interact with the society inside zewail city by making choices throughout their gaming experience to create their own story.

Features:

1. Main menu
2. Objectives
3. 2d graphics map
4. Tap to show controls
5. Background music
6. Change volume / mute
7. Move character
8. Select character (male / female)
9. Chatting with other character
10. Explore the map
11. Enter different rooms
12. Collect items
13. Collect grades

14. Enter the academic building

15. Enter dorms
